Muhamad Rifki Ramdani

Bandung, West Java • rifki.ramdani.work@gmail.com • +6282130884122 • linkedin.com/in/mrramdn
github.com/mrramdn • rifkidev.tech

Backend developer with practical experience in PHP (Laravel) and MySQL. Familiar with HTML, CSS (Tailwind, Bootstrap), and basic JavaScript/React. Focused on writing clean code and solving real-world problems. Interested in audio and photography.

EDUCATION

Computer Science   **Aug 2024 - Aug 2028**
Bina Nusantara University

Selected as a member of a competitive team (Lab-Curiosity) representing BINUS University in software-related competitions. Actively involved in collaborative project development, technical preparation, and solution-based challenges beyond regular coursework.

Software Engineering   **Jun 2021 - Jun 2024**
State Vocational High School 1 Cimahi

Involved in real world case software projects during vocational training, including client-based development and internship tasks. Actively participated in school extracurricular activities and developer communities to enhance teamwork and communication skills.

WORK EXPERIENCE

Team Promotion Intern   **Jun 2024 - Jul 2025**
Bina Nusantara Group   **Bandung**

- Distributed promotional materials (flyers, brochures) to increase event and brand visibility.
- Acted as front-line customer service representative, answering inquiries and engaging with prospective audiences.
- Supported event operations during expos and campus activations, ensuring smooth booth setup and visitor flow.
- Contributed to lead generation efforts by gathering audience feedback and promoting key offerings.

Backend Developer Intern   **Jan 2024 - May 2024**
WIT. ID   **Bandung, West Java**

- Handled end-to-end backend development, including API design, database structuring, and business logic implementation.
- Expanded and refined existing codebase to support new features and improve maintainability.
- Collaborated closely with frontend developers and product managers to translate feature requirements into scalable backend solutions.

PROJECTS

19sixtyfive   **Jun 2025 - Jul 2025**

Contributed as a frontend developer to build a responsive static website for a company profile project under an agency. Collaborated with the team to implement layouts using pure HTML, CSS, and JavaScript. Ensured design consistency and mobile compatibility across devices. Delivered the final build within timeline to support client branding.

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Team Creative   **Oct 2023 - Present**
Audiophile Club (Portable Audio Bandung)   **Bandung, West Java**

- Developed and executed creative projects to enhance the club's visibility and engagement.
- Collaborated with team members to plan and implement audio-related workshops, listening sessions, and events.
- Designed visually appealing posters that effectively capture the essence of club events, workshops, and initiatives centered around audio and music appreciation.
